## → Profile

*Sum up what you have to offer to a potential employer in 3-5 sentences. For example:*

I am Justin, I'm from San Antonio, Texas and I have started my path towards web development. Went to college for a few years and ended up switching over to Austin Coding Academy to focus on my goal. I'm a hard worker and very coachable, eager to get into the field and learn more.

## → Education

June 2019–May 2020

### Austin Coding Academy

Full Stack Web Development

August 2013–June

2017

### Alamo Heights High School

High School Diploma

## → Technical Skills

- **Languages:** Java, C++, Python, JavaScript, HTML/CSS
- **Frameworks & Libraries:** Bootstrap, AngularJS, React
- **DevOps:** Git
- **Databases:** MySQL

## → Projects (in lieu of developer work experience, this is where you can shine)

Will Provide when capstone project is complete

## → Work Experience (keep descriptions of irrelevant experience very short, expand on technical experience only)

### Cashier/Checker | H-E-B, Austin, USA

06/2019 – present

As a cashier, I am responsible for handling the customers transactions on their purchase. As a checker my job either to be outside in the lot pushing carts, or inside at checkstands bagging for customers.

- I used to be scared to handle people, and just get nervous. As I continued to work there however, i got much better and comfortable serving customers.

### Package Handler | UPS, Austin, USA

07/2018 – 11/2018

As a package handler, I would be placed in a trailer with a conveyor belt flowing with packages. My job was to place each package into the trailers and stack the trailer full with boxes.

- Was forced to get better with time management between school and work.

## **Finisher | Wash Tub, San Antonio, USA**

**05/2015 – 08/2016**

As the Finisher, we had one of the most important jobs. After the car exits the side dry station, the car is pulled into the lot for a team of two finishers to begin touching up wet spots. Procedure was to wipe off door jams, exterior and interior of car, and windows. Sometimes our washes included tire shine or a wax so finishers would add that to the procedure.

- First job during summers during two years of high school. Learned how to save money and basic customer service procedures.
